CALLS FOR MINE PEACE Representatives of Both Sides Will Go to Washington In Effort to Settle Long Dispute; Lewis Blames Roosevelt Administration for Failure to Reopen Bituminous Coal Mines; Federal Action Hinted by Secretary of Labor Perkins

> New York, May 8 (A)-Conferees representing the United Mine Workers and Appalachian coal operators tonight accepted an invitation to confer tomorrow with President Roosevelt in an effort to end their long dispute

> over a new labor contract. Only a few hours before, John L. Lewis, head of the UMW and of the Congress of Industrial Organizations, had put the blame on the Roosevelt administration for the long shutdown of the bituminous industry which followed the failure of operators and miners to reach a new labor agree-

ment to replace that which expired March 31.

Exact Time Not Set Acceptance of President Roosevelt's invitation to meet him in Washington was announced by Secretary of Labor Frances Perkins. She said the exact hour for the confer-

ence had not been set. Announcing the president's direct intervention in the dispute, Miss Perkins said she believed the operators, in refusing, as she put it, to continue operations under the old union contract pending negotiations, had made a "violation

of the principle, of the ethics, of collective bargaining." "Among the things which are generally accepted," she added, "is that every effort should be made to continue operations x x x.

She remarked that the government had "borne down

### House Votes Huge **Appropriation To** Bolster U. S. Navy

#### Passes \$773,414,241 Bill with Only Brief Debate

Washington, May 8 (P)-With a minimum of debate, the House voted 296 to 58 today to give the navy its peacetime appropriation-\$773,414,241 for the fiscal year that begins on July 1

The money, which will go for new ships, airplanes, and armaments, as well as to defray the navy's regular operating costs, is \$145.817.047 more than the appropriation for the year now drawing to a close.

At the last minute, \$2,941,000 was added to the bill for naval air bases at three mid-Pacific islands-Midway, Palmyra and Johnston. It already contained items for similar bases in Alaska, Hawaii and in the continental United States.

Midway, Palmyra, Johnston and Allegheny River, Wake islands. It reconsidered, however, and recommended a compromise arrangement whereby Wake island was to be dropped and three other proposed.

He is afraid of what people will think. To be sure, he would ask for a drink of water, but he would not believe that, Puppy, but it has happened in this very town where you live.

You, being a dog, are grateful for the food and drink I give you. So, too, is a man grateful for such help. But for only a little while. Then the gratitude frequently curdles within his breast. Not in all men, and furniture would have a serial number, I hasten to assure you, but in many of them is bitter resentment against the man who is their creditor.

He is their friend and yet he is their enemy. They have begged and they suspect him of pity and condescension. They do not wish his pity, they resent his condescension. . . And unless a man watches himself carefully, Puppy, the sweet of another's generosity begins to taste bitter in the mouth as a green olive from the tree.

### Annual Property Inventory

A YEARLY CHECK of city-owned real estate and equipment, usually one of the largest assets of local government, is recommended in a manual issued by the Municipal Finance Officers' Association of the United States and Canada

Many municipalities are not aware of the value of their ownings, because the original expenditure was treated as an expense and no permanent record of the property has been set up, the Association said. Every time I go to the seashore some alarmed parent brings me a child who has swallowed a pebble. I have learned by this time to reassure them and try to calm their fears. In every case the pebble eventually works its way out of the digestive

tract and leaves everybody happy. No Operation Needed But pebbles are smooth and this bridge was sharp. Several doctors were called in and did not believe that the bridge would pass out of the stomach, let alone go through the intestines. They all thought an operation would be necessary. But by giving a diet with a good deal of fruit and soft material, such as oatmeal, it did pass in four days.

Four days, by the way, is the time I have learned to calculate for the passage of pebbles. It is the classical period

TES—provided you have an absolute guarantee of your finance L company against any hidden charges in rate, and a guarantee that you will receive exactly the insurance for which you pay. Commercial Credit Company openly publishes its rate and makes these

guarantees. The dealers who give you Commercial Credit service co-operate in extending these guarantees to you. If you buy on the Commercial Credit plan, you get every protection to which you are entitled. Accept nothing less.

Why spend the money you have saved? Buy your new car out of your monthly income just as you pay your rent. Pay for your new car while you use it. You will be surprised at the little difference between the cash price plus cost of insurance, and the time pay-

#### Our Rate is Guaranteed -We Hide No Charges

When we handle the financing of your time payment transaction on your new car of any make, we guarantee that the finance charge you will pay does not exceed \$6.00 per year per \$100 (50c per month) on your original unpaid balance plus charge for the insurance you receive, payable in 12 to 18 or more equal monthly instalments. Some states require a small charge for filing, recording or tax, which is added. No hidden charge for 'investigation' or anything else.

#### Complete Insurance Protection

You receive a policy or certificate issued by one of the largest insurance companies protecting you against loss by fire-actual value; theft-broad form; collision-deductible type; and other accidental physical damage to your new car. We guarantee that you will get exactly the insurance you pay for and will not pay any more for such insurance

than the regular published rates charged by the same insurance company for the territory in which you live.

#### Ask Any Dealer For This Guaranteed Plan

Your local dealer can handle the entire transaction for you with the least trouble, at one place, one time. This guaranteed monthly payment plan is available through acceptable dealers anywhere in the United States through 192 local offices that extend Commercial Credit service. You will find the employes at these local offices efficient, courteous and helpful. They are just as much a part of your community as your local druggist or grocer.

Buy your new car from the local dealer who gives you Commercial Credit service. You will then benefit by our guarantee.

### Abandoned in Frederick

Frederick, Md., May 8 (A)-Frederick may abandon its long-delayed slum clearance, low-cost housing program, now pending before Federal Housing Authority officials in Washington.

The abandonment proposal came after W. Clinton McSherry, chairman of the local housing authority. asked city officials if they desired to continue the negotiations. Mayor Lloyd C. Culler responded that he would have no objections to dropping the project. Several aldermen supported his stand.

Several "deadlines" set by the Federal government for action on the program have passed, it was pointed out, with no action being taken. The present deadline is May 25. FHA officials having reported the application would be acted upon by them. Indications were that it would be approved.

CHAPTER TWENTY-EMEL THAT SPRING Alida Somers rented the house next to the Parrishes and Eleanor found in her the intellectual companionship she had never met in any other woman. Eleanor called it intellectual companionship. Actually, it was no more than her first contact with the point of view of a sophisticated woman of the world.

A fairly successful portrait painter, Alida, at the age of 35, was unmarried. Her conversation, devoid of the trivia regarding matters domestic, was witty, wise and an endless source of information to Eleanor. Trained longer than Eleanor to read the emotions, the motives, the experiences that wrote themselves onto the faces of her subjects, Alida had much to offer Phil Parrish's wife.

The writer in Eleanor drank in the observations of her new friend and found the dimensions of her own perception widening, but when Alida attempted to advise her in a matter that concerned her personally, Eleanor reverted to her own | \$\ \mathbb{728}

#### Negroes Admit Killing Girl for Box of Candy

Pine Bluff, Ark., May 8 (A) -Dark-haired Irene Taylor was found slain and a few hours later Sheriff Garland Brewster announced he had jailed four negroes and two had admitted killing the 19year-old farm girl "because she had a pretty box of candy "

Sheriff Brewster said the girl, missing since Tuesday, had been clubbed, raped and strangled with haywire. He did not disclose the prisoners' names but listed them a a woman about 45 years old, one wouth of 20, another 18, and a 15year-old girl. He would not say which ones had acknowledged guilt but declared first degree murder charges would be filed against all

Brewster said the negroes told him they seized the girl when she walked through a negro cemetery Tuesday afternoon "because she had a pretty box of candy they wanted and they thought she had some

The sheriff quoted the negroes as saring they hid the body in some bushes and Tuesday night dragged It to nearby Piat Bayou, bound it with wire, weighted it with scrap fron and sank it in water two and a half feet deep about 15 yards from the bank.

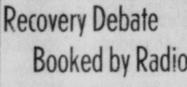

The corpse was found there by searchers this morning.

#### HERE'S AN INTERESTING CIGARETTE COMPARISON... See how it's made by Al **Conklin of Dartmouth**

MOKERS all over the country are learning what A. R. Conklin (right) is showing a group of Dartmouth men. It's a striking way to compare cigarettes by simply watching them burn! Al is testing the leading brands to find the one that burns slowest! Which brand won? C-A-M-E-L... by a wide margin! The reason? Costlier tobaccos, expertly blended in a cigarette that burns slowly, completely - smokes cooler, of

Recently, a group of scientists ran this interesting laboratory test on a bigger scale. 16 of the largest-selling cigarette brands were rated impartially. CAMELS BURNED SLOWER THAN ANY OTHER BRAND TESTED-25% SLOWER THAN THE AVERAGE TIME FOR THE OTHER BRANDS. (Camels were remarkably consistent.) IN THE SAME TEST, CAMELS HELD THEIR ASH FAR LONGER THAN THE AVERAGE TIME FOR ALL THE OTHER BRANDS.

Camel is the cigarette of costlier tobaccos...a cooler, milder, better-tasting smoke ... every cigarette ... every pack!

"Look how slowly the Camel burns compared to the other brands," Albert Conklin points out to the bunch. Everyone agrees that Camels win hands down. "No wonder Camels smoke so cool and mild," Al adds. "And that must have a lot to do with why Camels have such an appealing taste!"

# moking is Believing

WHEN you've enjoyed the thrill of a mellow, ripe-tasting Camel, you'll know that NOTHING can take the place of costlier tobaccos! What a wonderful pleasure it is to get set with a cigarette that is really mild - a matchless blend, made to give you all the pleasure in smoking.

Camels have more tobacco by weight than the average of the 15 other brands tested. Besides, Camels burn slower than any of those other brands. And by burning 25% slower than the average of the 15 other of the largest-selling brands, Camels give you the equivalent of 5 extra smokes per pack!

Camels give you even more for your money when you count in Camel's finer, more expensive tobaccos. Buy shrewdly! Buy Camels ... America's first choice for a luxury smoke every smoker can afford!

### Cal Crim Will Be Given Testimonial Dinner on May 15

#### Head of Crim Detective Agency in Cincinnati Is Native of Oakland

Oakland, May 8-Friends of Cal Crim are planning a testimonial dinner in his honor as a veteran detective of the city of Cincinnati, O., when his seventy-fifth birthday anniversary rolls around May 15. Crim is a native of Oakland and left here when quite a young lad to "make his fortune in the West."

Accompanying Cal on his westward trip were the late Dr. Henry W. McComas and Charles Sweeney, brother of John Sweeney, Oakland.

Dr. J. Lee McComas wired authorities in the west about his son and a policeman hailed him in Columbus, Ohio, and returned him to Oakland. The doctor often related this experience to his friends. Sweeney settled in St. Louis, Mo., while Cal Crim entered Cincinnati barefooted and settled there.

The celebration will be a triple one for Cal. It marks his diamond birthday anniversary, his golden jubilee as a detective and his silver anniversary as his own boss. He spent two years as a cop before he became a detective, joining the Cin-Polish Political Club cinnati force in 1886. He was made a detective in 1889. In 1897 he was made assistant chief of detectives and a few years later got the chief's Alma Mardis, 16, had never job. #### **Beckley Man Almost** Hanged by Group Of Masked Men

Beckley, W. Va., May 8 (A)-John Sweeney told state police today he almost was hanged by a group of masked men because of his efforts against a proposed

school levy bond election. Corporal A. Scalise said Sweeney told this story:

Returning home last night from a campaign against the bond issue, on which a vote is scheduled tomorrow, he was attacked by a group of men disguised in "white sheets." "You're working against the

levy and we're going to hang you'," they threatened - and then proceeded to carry out the 'I got my hands loose and

about how he felt on the levy question. Sweeney asserted: "I'm not going to have anything more to do with it."

He said the men released him and chased him down the road. Sweeney, who apparently suffered no ill effects, was questioned at length by officers, who started an investigation.
